Experience

- 01/2022– **Senior SRE**, *DigitalOcean*, Berlin
Today DigitalOcean provides developers, startups, and SMBs with cloud infrastructure-as-a-service platforms. My main responsibilities are:
- Leading a project to review, standardize and improve our tooling and processes for deploying new datacenters.
 - Contributing to multiple Python and Go projects.
- Python, Go, Concourse.*
- 09/2020– **Platform Engineer**, *Scout24*, Berlin
10/2021 Scout24 is a digital marketplace for residential and commercial real estate in Germany. My responsibilities were:
- Maintaining and providing support for our CI, logging and monitoring tooling, and internal PaaS.
 - Contributing to multiple Python and Go projects.
 - Member of an internal working group on Operability and Reliability: leading the initiative to review and optimize our incident response tooling and processes.
 - Onboarding and mentoring junior developers.
- Python, Go, AWS, Jenkins, Docker, Datadog, Fluentd, OpsGenie.*
- 10/2017– **DevOps Engineer**, *Mozilla Foundation*, Berlin
07/2020 Mozilla Foundation is a non-profit fuelling the movement for a healthy internet. Junior DevOps Engineer from October 2017 to April 2019. My responsibilities included:
- Developing, maintaining, and being on-call for 40+ websites and services. I led an inventory of our services and decommissioned 70+ apps, reducing infrastructure costs by more than half.
 - Introducing and teaching Docker to a team of mixed skill levels, and unifying our development setup and tooling for all our Django projects.
 - Maintaining our deployment pipelines on Heroku. I automated temporary apps' deployment upon Pull Request creation, and wrote a Slack bot to notify developers when they're ready.
 - Contributing to Python and Django (Wagtail) projects.
 - Optimizing and maintaining our CI: reducing build time by half on Travis.
 - Monitoring our services using Heroku, Logentries, and Scalyr.
 - Onboarding and mentoring a junior developer.
- Python, Django, Node.js, AWS (CloudFront, S3, Route53, SQS, IAM), Heroku, Travis, Appveyor, Docker, Logentries, Scalyr, VictorOps.*
- 04/2017– **Systems Engineer**, *Mapbox*, Berlin
07/2017 Mapbox provides geographical tools for developers. I was part of the Directions team and worked on:
- Updating CloudFormation templates to deploy Node.js apps on EC2.
 - Monitoring services with CloudWatch, using Sumo Logic for log management.
 - Adding alerts using Lambda.
 - Contributing to a few features of the Directions' Node.js API.
- Node.js, AWS (CloudFormation, EC2, Lambda, CloudWatch), Travis.*

- 09/2015– **Awesomeness Ambassador**, *Django Girls*, Remote
- 03/2017 Django Girls is a UK based charity that helps people organize programming workshops. As their only employee, my responsibilities were:
- Contributing and maintaining Django Girls’s webapp on a PaaS, providing hundreds of organizers with ready-to-use websites.
 - Designing and automating processes to optimize the organization: wrote Python scripts to generate newsletter content or archive events.
 - Doing a major rewrite of the organizers’ documentation, and providing user support.
- Python, Django, HTML/CS, Travis, Opbeat, PythonAnywhere.*
- 05/2016– **Freelance Contractor**, *Write the Docs*, Remote
- 09/2016 Write the Docs is the community around Read the Docs, a documentation hosting service. My responsibilities mostly focused on improving Write the Docs website and the community documentations.
- Python, HTML/CSS, Markdown, Sphinx.*

Open Source and extra-professional

- 2019–2020 **MozFest Wrangler**, *Neurodiversity Space*
- 2016–2017 **Django Team member**
- 2015–2018 **Django Girls organizer, coach and contributor**, organizer of two programming workshops in Paris, coach at 10+ workshops and main translator of the French tutorial
- 2015–2017 **Pyladies Paris founder and organizer**
- 2015–2016 **Volunteer at Write the Docs EU conference**
- 2009–2011 **Network and System Administrator**, *Supélec Rézo*, network’s administrator of the student housing and developer for related services

Conference Talks

- 2016 **DjangoCon US**, “*How to not ruin a great teaching moment*”, short talk
https://www.youtube.com/watch?v=kDg93T4_rtk
- 2015 **DjangoCon Europe**, “*Reaching out - Django in the Social Sciences*”
<https://vimeo.com/134845607>

Academic Experience

- 2015 **Lecturer in Korean Geography**, *Inalco*, Paris
- 2012–2013 **Research Assistant**, *Center for Korean Studies*, *EHESS*, Paris

Education

- 2012–2015 **Ph.D candidate in Geography and Korean Studies**, *EHESS*, Paris, “*Korean cooking and restaurants in Paris since 1980’s: spatial logics and cultural circulation*”, directed by V.Gelézeau
- 2011–2012 **Master’s degree “Southerner and oriental Asia: fields, texts and social sciences”**, *EHESS*, Paris, *Magna cum laude*
- 2009–2011 **Master’s degree “Géoprisme”**, *Panthéon-Sorbonne and Paris Diderot Universities*, Paris, *Magna cum laude*
- 2008–2011 **Master’s degree “Geography, settings and territories”**, *University of Sciences and Technologies*, Lille, *Summa cum laude and head of the class*
